

# COLOR FINISHES

ICS exteriors are made of tough stucco-embossed aluminum with a factory baked-on polyester coating that provides years of maintenance-free service.

This finish exceeds the standards for durability established by national food service systems who have, for years, enjoyed the economy and flexibility provided by ICS walk-ins.

ICS' range of color selections makes it easy to select a finish that blends well with your building's exterior decor.

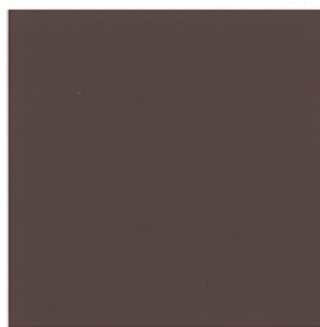

In addition, ICS can factory prepare your walk-in for direct attachment of other architectural finish systems (stucco, lap siding, exterior siding panels, etc.) to match your building exactly.

**Aluminum**

**Polar White**

**Autumn Brown**

**Sand**

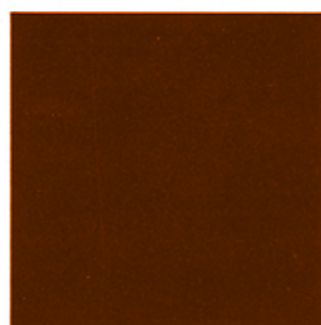

**Taupe**

**Almond**

**Mist Gray**

**Copper**

**Technical Specifications** • Coating thickness .8 mil • Curing temperature 435° F hardness (pencil) F minimum  
• FDA approved pigments • Excellent salt spray, humidity, and chemical resistance
